Diagram showing the cross-section of the bridge structure. The vertical axis represents elevation in meters (m), and the horizontal axis represents stationing in kilometers (km). The bridge is shown with a central pier and two side piers. The structure is labeled with various dimensions and elevations. Key data points include:

- Station 0+000:000: TS = 122,920 m
- Station 0+042,164: TS = 123,763 m
- Station 0+550,000: TS = 123,872 m

The diagram also shows the bridge's profile, including the approach roads and the bridge deck. The bridge is labeled with 'Richtung Siedlerweg' and 'Richtung Großostheim'. The bridge is shown with a central pier and two side piers. The structure is labeled with various dimensions and elevations. Key data points include:

- Station 0+000:000: TS = 122,920 m
- Station 0+042,164: TS = 123,763 m
- Station 0+550,000: TS = 123,872 m
